Nov 24. 22

My dear Clarke :

Thanks for your kind and very interesting letters of Nov 21 and 22. I appreciate very much what you say about my "Forty Years". There are many references to you and your splendid work all through the book, which should have been indexed - but the Co was indifferent to that, although I urged it several times. The Contents are a good General Index.

I am glad to have your note of erratum. Shad. of

course, Edison's stuff before me,  
and personally did not know it  
was Lawrence rather than Prondence,  
in that instance. My acquaintance  
with dear old Sims began at  
D. where I often went on his  
invitation, and once spoke for  
him before the Chamber of Commerce  
to get the trolley adopted.

By coincidence, the 2nd vol  
my "Story of Electricity" is out this  
week. So I have two books to  
my credit for 1922, and am  
beginning a third - that on  
Staubly - not so bad for an  
old man the Great War was  
nearly killed outright.

Be sure I get a G. & Review  
I am keen to see your story right  
away.

Yours ever  
Ch. Clarke & J. G. Schenck
